

House camps

provide an opportunity for y6s and y5s within the same house to come together and spend time with each other, to facilitate bonding within a house and promote the spirit of the house

- after school event/ during the holidays
 - modelled after standard CCA camps where the purpose of **the came** is to welcome the new y5s into the house

why?

- there is a lack of interaction between those in the same house except for mass scale events like sports carnival and orientation.

#drakihonnu

purpose?

to allow y5s to feel a deeper & greater sense of belonging to their new houses

through team bonding games (mass games, campfires activities) as well as relaxing leisure activities like movies and sharing sessions, to let y5s feel like they are a part of a small family that they can lean on
