H1, I'm Jung Woo and I'm running for Student Council this year because I want to challenge myself as an individual by stepping out of my comfort zone. I want to make a difference for Dunman High School by doing my very best! As a diligent person, I ensure that tasks are completed on time and not delayed. I also have empathy based on my peers and I think it is important to put yourself in their shoes and see from their perspectives to become a great leader. With better understanding towards one another, tasks can be run smoothly.
