dkhn!

- what can be improved on:
- how student input / feedback can be collected

→ collecting feedback from students is important for SC to understand their concerns
→ traditional way of simply sending students a link for feedback might not be effective as students may not see the point

→ a new incentive-based system for feedback: a link can be put up on d.hype for feedback, and every student that completes the form stands a chance to win DHS merch (such as drakihonnu plushies, etc)
→ more attractive for students to give feedback!

- new initiatives that could be implemented:

- drakihonnu week!

→ a week's worth of events and activities that all SH students can participate in
→ games / activities based online / offline that contribute to house points, houses are ranked at the end of the week and awarded prizes based on ranking e.g school-wide treasure hunts, game booths after school, lucky draw and contests etc.

→ to foster house pride through friendly inter-house competition, **increase relevance of Houses to SH students and add vibrancy to Senior High life**
