## Teachers day: D'HACKED

On the week of teachers day, SC could allow one teacher per day to 'hack' d.hype and bring the student body raw footage of that teachers daily routine. This can be done through story updates or live streams.

### Rationale:

This is an interesting way to increase students awareness and appreciation of the work teachers put in on a daily. This sentiments would be an apt buildup to the teachers day celebration at the end of the week.

## Improvements for Dunman Day! 2020

On the last day of school, all students should come in a Dunman Tee. Look forward to after school activities such as a Mass picnic at the field at 7 to watch the sunset. An on campus photo booth and ice cream vendor is also possible

### Rationale:

This can create a sense of unity and belonging to the school amongst students. It also serves as a 'last hoorah' for year 4s & year 6s, providing a fun avenue to forge meaningful memories with peers before the holidays begin
