

# **IDEA BOARD**

## **Suggestions and Initiatives**

### **Elections:**

For elections, a live Q&A session can be conducted during the Assembly timeslot. This would be where the student body can ask the candidates specific questions on how they would be able to contribute to the school etc. The questions can either be general questions or questions for specific candidates to answer. This also allows the school to form genuine opinions of each candidate and be able to make a more informed choice when voting.

### **D'Carnival:**

During D'Carnival, it would be good if the team sports were also integrated with inter-level bonding. (e.g. team comprised of half Y5 players and half Y6 players) I believe that inter-level bonding games will foster a stronger sense of camaraderie and the school will be more bonded and cohesive as the juniors will feel more comfortable around their seniors, Seniors will also be able to give back to their junior by teaching them about sportsmanship and being good role models.
