IDEA BOARD

SUGGESTIONS & INITIATIVES

Y1 orientation can be held over a week instead of 3 days. This way, they would have more time to open up to their classmates through the bonding activities and games, especially since many of them are very shy at first. A buddy system can also be introduced for them to get closer to their classmates. 3 days is also too short to plan a proper performance during the finale.

There used to be Y2 level night but we stopped having it for some reason. I think we can bring back that idea so that Y2s will get to bond with their classmates one last time before streaming into their new classes in Y3. The level night can be improved by including more interaction time between the students so they would be able to reflect on their past 2 eventful years together.
